Place Supply Reel on Supply Reel spindle with oxide-side facing out from

reel (tape flipped 180° on reel) so backcoating-side faces cleaning mechanism. Engage tape in mechanism and proceed with wet cleaning process, followed immediately by dry cleaning of backcoating-side. NO Is tape clean of backcoating? YES Rewind tape so that backcoating side faces out on Supply Reel (tape flipped 180° on reel again) Engage tape in mechanism and proceed with dry cleaning of oxide-side of tape.

> Is oxide-side of tape free of debris?

Tape is clean and may be played back.
